Band Featured On Next General Lectures Program

Program To Be Thursday at 8:00

The R. O. T. C. Band of the Missouri School of Mines will present a concert Thursday, April 10, at 8 p. m., as the next feature on the General Lectures Program. This is the only concert given by the band for the students of the school.

The program and personnel of the band are as follows:

Program

- 1.—"March of the Champions"—Huffer.
- 2.—Sonata Pathétique, Op. 13—Beethoven. (Special Band arrangement for this occasion by Mr. Scott.)
- 3.—Baritone Solo, "Smithsonian" Concert Polka—Clay Smith. (Played by Mr. Gordon Engle.)
- 4.—"Zephyr" from the "Four Winds," Indian Suite—Trinkaus.
- 5.—Selection from the Opera "Carmen"—Bizet.
- 6.—Brass sextet "La Fiesta"—Messrs. Kratz, Meyer, Beveridge, Faulkner, Engle and Stoll.
- 7.—Memories of Stephen Foster, introducing the Flugelhorn (first one heard in Rolla). Vocal effects and the Ocarina band.
- 8.—Overture "William Tell"—Rossini.
- 9.—Xylophone solo—"The Mocking Bird" fantasia—Stobbe. (Played by Mr. Daniel C. McLean.)
- 10.—"The Whistler and his Dog"—Arthur Pryor.
- 11.—"Stars and Stripes Forever"—Sousa.

Personnel:

Capt. H. B. Moreland, Mgr.
J. H. Fox, Drum Major.
Jno. W. Scott, Musical Director

TRUMPETS:
Meyers, K. E.
Kratz, J. K.
Goodhue, E. A.
Balin, R. P.
Dunham, R. M.
Neustadter, J. A.
Spence, L. L.

TROMBONES:
Dunn, J. H.
Faulkner, C. M.
Schmidt, R. F.
Mateir, R. S.
Peterson

CLARINETS:
Coolidge, D. J.
Wheat, R. D.
Heddell, J. V.
Hubbard, W. A.
Couch, G. R.
Eagle, W. G.

BASSES:
Stowell, R. L.
Miller, R. F.
Keller, H. J.

Independent Election Results

Holding their annual election last night in the Chemistry building, the Independents elected Bob Stowell president, Melvin Ullrich vice-president, Welly King secretary, and Melvin Flint treasury.

The present sopomores who will serve on the St. Pat's Board are Ray Kasten and Rene Rasmussen. To serve as Sophomore members of the Student Council are Vernon J. Pingel and Thomas Brannick. Seymour Orlofsky and Charley Mitchell will be alternates.

Frances Krill, Kent Comann, and Otto Self were elected as Junior members of the Student Council and Jack Doerres, Jack Olsen, and Vernon McGhee were elected as alternates. Robert Stowell, George Bradshaw, Welly King, and Oscar Muskopf will be the Student Council representatives of the Senior class and Bob Pohl, Jack Nevin, Melvin Ullrich, and Mel Flint were elected as alternates.

Navy Recruiting Picture Shown

"Eyes of the Navy," a short picture produced jointly by Paramount and the United States Navy, was shown Monday afternoon in the auditorium of Parker Hall by the Naval Reserve recruiting officers from St. Louis. The purpose of the film was to acquaint prospective applicants with the type of life experienced in this service. In a short discussion before the film, the officers mentioned the pay, living conditions, advancements, and other features of Reserve officership were mentioned.

33 States, 7 Foreign Countries Are Represented in Enrollment at MSM

71 Per Cent of Students from Missouri; Illinois Second; St. Louis Leads State List

Students from 33 states and 7 foreign countries were included in the total enrollment of 917 students at the School of Mines here for the 1940-41 school year, a report from the Registrar's office revealed today. However, 71 per cent of the students were from Missouri.

The students registered from foreign countries were distributed as follows: British West Indies, 1; Canada, 1; China, 3; England, 1; Mexico, 2; Philippine Islands, 3; and Turkey, 3. This was a total enrollment of 14 students from foreign countries.

Missouri students led the list in enrollment with 607. Illinois was second with 126, New York third with 60, New Jersey fourth with 27, Massachusetts fifth with 15, and Wisconsin sixth with 12 students.

The enrollment from other

Students to be Re-Classified For Draft

A short time ago several members of the faculty, including professors M. D. Orten, C. Y. Clayton, and F. H. Frame started a movement to inform local boards of the status of engineering students, and to ask that those whose education is likely to be valuable to national defense be given deferment from the draft until their training can be completed.

Mr. Orten made a form which was filled out by juniors and seniors to be sent to selective service headquarters of Missouri, and to the local boards.

Reclassification Will be Made

Since then the federal government has taken steps to re-classify college students before July 1, 1941. Forms have been sent to all universities and colleges in the United States by the state selective service headquarters. These forms were received by Mr. Orten last Saturday. They are to be filled out in triplicate and copies will be sent to the state headquarters and to the proper local boards. One copy will be kept by the school.

These forms must be filled out promptly so that re-classification can be made immediately, and students should know the following information before going to fill them out: Your name; local address; home address; designation, address, and number of your local board; your order number, classification, number of dependents, and income.

Professor Orten has been designated to handle the filling out of these forms, and will advise students who have questions.

New Chem Building to be Dedicated Friday at 5:00

Governor Donnell To Be Present

The dedication of the Chemical Engineering and Chemistry building will be on Friday, April 11, at 5:00 p. m. It will be part of the closing program of the national meeting of the American Chemical Society which is being held this week in St. Louis.

The dedication will take place in the Unit Operations Laboratory. Dr. William R. Chedsey, Director of the Missouri School of Mines and Metallurgy will preside. The program will consist of: Invocation by Rev. O. V. Jackson; Introduction of Guests and Greetings by the Honorable F. C. Donnell, Governor of Missouri; Presentation of Keys of the Building by W. L. Rathmann, Architect, Klipstein and Rathmann, St. Louis; Acceptance of the Building for the Curators by Senator F. M. McDavid, President of the Board of Curators; Address "The Accelerating Advance of Chemistry" by Dr. Frank C. Whitmore, Dean of the School of Chemistry and Physics, Pennsylvania State College, and Past President of the American Chemical Society; "Chemical Engineering Today and Yesterday" by Dr. Harry C. Curtis, Dean of the School of Engineering, University of Missouri.

A banquet will be held at the Sinclair Pennant Tavern at 6:00 p. m. An informal program will be held. H. E. Wiedemann, Consulting Chemist, St. Louis, will be Toastmaster. Dr. Jules Bebie, Chairman of the Committee on Professional Development, A. I. Ch. E., and Consulting Chemical Engineer, St. Louis, will speak.

The building will be open for inspection throughout the day and student guides are available for excursions through the building. All those who are interested are cordially invited to visit the building and attend the dedication ceremonies at five p. m.

The building is skeleton concrete, buff brick exterior and unglazed tile interior, with ceilings and floors concrete. It contains 351,650 cubic feet and a floor area of 26,054 square feet.

The cost was \$341 per cubic foot. The price includes the general contract, plumbing, heating, ventilation, electric work and architects' fees, but not the laboratory tables, equipment and hoods for which an additional sum of \$28,038.00 was spent.

THANKS

The MINER wishes to thank the Jefferson City POST-TRIBUNE for submitting the pictures which were run in last Saturday's issue.

Legislators Visit School of Mines

Four members of a sub-committee of the House Appropriation's Committee, R. L. Ewing, chairman, Benny Rogers, Clyde Powell, and J. J. Daily, two members of the Executive Committee of the Board of Curators, Tom K. Smith, and Harold J. Moore, secretary of the board, Leslie Cowan, and President Middlebush visited the School of Mines campus yesterday.

The sub-committee was appointed for the purpose of visiting the five teachers colleges, the School of Mines, and the University of Missouri to study their requests for appropriations for the biennium 1941-42, and to make recommendations to the House Committee.

These men arrived late Monday morning and spent the day inspecting the buildings, campus, and equipment of the school. They have or will visit all of the colleges in the state and make a comprehensive study of the needs of each institution.

Lt. Asher to Speak To S. A. M. E.

Lieutenant Vernon Asher, a graduate of Missouri School of Mines, will speak Wednesday night to the S. A. M. E. on Reserve Lieutenant Training.

Lt. Asher has just recently completed the "refresher course" at Fort Belvoir.

The meeting will be held at 7:30 Wednesday in the Geology Lecture Room. The members of the Faculty and students are invited.

'M' Club Holds Annual Banquet

The first annual banquet of the "M" Club of the School of Mines was held at the Parish House Saturday evening. Nelson Gannun, president of the club, called on Coach Percy Gill, Prof. F. E. Dennie, Prof. C. Y. Clayton and Don Farquharson, business manager of the School of Mines, for brief remarks.

A feature of the program, was the showing of a complete motion picture of a football game between the Chicago Bears and the New York Giants. Coach Gale Bullman commented on the play as the film was shown.

A number of townspeople were guests of the club.

THE MISSOURI MINER

The MISSOURI MINER is the official publication of the Students of the Missouri School of Mines and Metallurgy. It is published every Tuesday and Saturday during the school year. Entered as second class matter April 2, 1915, at the Post Office at Rolla, Mo., under the Act of March 3, 1879.

Subscription price — Domestic \$1.50 per year, Foreign \$2.00 per year. Single copy 4 cents.

What To Do About A Dormitory?

Now that the "Omnibus Bill" seemingly has been declared dead, what is the School of Mines going to do about housing for its students? Killing the bill does not relieve us of the problem of where we are going to live next year. Now is the time to solve that problem if it is to be solved. If it isn't solved we all know only too well what the predicament will be next fall. 12,000 people will be living in a town that is equipped to hold only five or six thousand. Shall we fold our hands and sigh about it? WE'RE ENGINEERS.

Supposedly resourceful and creative people. Five years from now most of us will be handling projects much bigger than the building of a dormitory. Should the dropping of the bill stop us now?

There are two courses we can follow to get a dorm. One is to talk to the Board of Curators and convince them that we have to have appropriations from the state, and that it is up to them to get us the money. They are supposed to be looking toward the welfare of this school. With our parents organization and the student body both clamoring for a dormitory, we can make it hot for them if they don't get us one. Leaders of the "Student Movement" are working on this angle. Mr. McDavid has promised them that he will hear their plea at a curator's meeting this week if the Board can be called together. By next Monday we should know something of what we can expect from the Curators. Let's hope they will give ample consideration to the evidence presented.

If this doesn't bring results we still won't have to admit defeat. The school has the power to float a bond issue and build a dormitory itself. This has often been done by other schools, and it didn't take an Army camp to prompt them to do it. It's true that someone would have to be prodded along before it would be done. Director Chedsey is not in a position to get it done. BUT STUDENTS AND PARENTS ARE, AND THERE'S PLENTY OF REASON WHY WE SHOULD!!

Do Your Part In Keeping The Issue Alive!!

The dormitory issue and the forced resignation of Dr. Chedsey has again vividly brought out to the School of Mines the dead weight that has been holding the school down for 50 years—its constitutional affiliations with the University of Missouri. Now is the time when those affiliations can be partly broken loose. The issue is before the public eye enough to have it drawn to a head.

Senator Allison has introduced a bill to the legislature that will give us a president who has powers equivalent to those of President Middlebush, and who is not responsible to him. This will be sufficient separation if there are several members on the Board of Curators who will help fight our battles. The "Association for the Advancement of MSM" has sent a resolution to the governor asking the rectification of this.

What is the individual student's job? Simply this. If you happen to know anybody who has a drag with the governor or any legislator, write him and ask him to exert pressure in having the bill passed by the legislature and the resolution given consideration by the governor. Do it now! We need immediate

action. Also, keep in touch with student leaders and give them your suggestions and your backing. It will help a lot. **Keep the issue alive. Don't let it die when we have a chance to do what should have been done 70 years ago.**

What! When! Where!

Dismissal of Middlebush Asked in Resolutions Sent to Governor Donnell

Formal resolutions condemning the attitude of members of the Board of Curators toward the School of Mines and asking the dismissal of Dr. Frederick A. Middlebush as President of the University, have been transmitted to Gov. Forrest C. Donnell, members of the Legislature, parents of students, friends of the school, and others. The resolutions were adopted at a recent meeting of the Association for the Advancement of the Missouri School of Mines.

The text of the resolutions as submitted follows:

WHEREAS, the conduct of certain members of the Board of Curators of the University of Missouri and the summary dismissal of Director William R. Chedsey has created a crisis at the Missouri School of Mines and Metallurgy at Rolla, which has caused confusion in its orderly operation and may threaten the continued development and even the very life of the school itself;

THEREFORE, BE IT RESOLVED, that we, the Association for the Advancement of the Missouri School of Mines and Metallurgy, petition the Governor of Missouri to take cognizance of the unbecoming, if not unethical, conduct of certain members of the Board of Curators in lobbying against the passage of a bill now pending in the General Assembly of Missouri, giving the School of Mines and Metallurgy a dormitory building. We further desire to call attention of the Governor to the fact that at least one said curators, namely, Tom K. Smith is a member of the Executive Committee of the School of Mines and Metallurgy, charged with the solemn responsibility of caring for the welfare and development of that institution, and that this same Tom K. Smith has emphatically declared to Senator Emery W. Allison, that, if the students of the said School of Mines and Metallurgy could not be housed in private homes at Rolla, Missouri, they should go elsewhere for their education.

We further desire to call to the attention of Your Excellency, and to the members of the General Assembly, the unsatisfactory, if not destructive, policy of the President of the University of Missouri, Dr. Frederick A. Middlebush, with respect to the adminis-

tration of the School of Mines and Metallurgy, pointing out:

First: That this President has never attended a meeting of the faculty or of the student body of the School of Mines and Metallurgy at Rolla, Missouri.

Second: That he has not made the kind of study that would acquaint him with the educational problems and needs of this institution;

Third: That he is known to have declared that he regarded the establishment of the School of Mines and Metallurgy at Rolla as an educational mistake;

Fourth: That he has failed to sincerely support efforts toward the maintenance of modern classrooms and laboratories necessary to prevent deterioration of the recognized high standard of the School of Mines and Metallurgy.

Fifth: That he has failed to make proper effort to provide a teaching staff commensurate with the increased enrollment of the said School of Mines and Metallurgy;

Sixth: That he has repeatedly ignored the School of Mines and Metallurgy which is legally the technological branch of the land grant schools in Missouri, in appointing delegates to the meetings of the Congress of the land grant colleges in the United States and has repeatedly appointed the Dean of the Engineering School at Columbia as the delegate. This we submit was improper for the rea-

son that the Engineering School at Columbia, being established purely by an act of the Board of Curators, is in no sense a land grant school. President Middlebush has had his attention directed to this matter, but has made no effort to correct it, ignoring the School of Mines and Metallurgy in this respect;

Seventh: That President Middlebush has cited no specific charges against Director Chedsey as grounds for his abrupt and summary dismissal;

BE IT THEREFORE FURTHER RESOLVED that the sentiment of the Association for the Advancement of the Missouri School of Mines and Metallurgy is that President Frederick A. Middlebush of the University of Missouri, has disqualified himself by obvious prejudices and that the Board of Curators of the University of Missouri should relieve him of the office of President.

IT IS FURTHER RESOLVED, that it is the sentiment of this Association to respectfully urge you as Governor of Missouri in filling the vacancies now existing on the Board of Curators, to select persons who are known to be just and impartial, both to the University Departments at Columbia and at Rolla and that at least one third of the Board should be selected from engineering, construction or industrial fields in order that they be familiar with the educational needs and problems of the engineering profession.

IT IS FURTHER RESOLVED, that due to the recent development of a housing shortage in Rolla as a result of the building at Fort Leonard Wood and the large increase in enrollment of the student body, an emergency exists at the site of an important state institution which can only be relieved by the State and that an appropriation should be made from state funds for a reasonably adequate dormitory to house students of the School of Mines and Metallurgy.

IT IS FURTHER RESOLVED, that for the proper, full and efficient realization of the purposes of the Missouri School of Mines and Metallurgy, which is to provide within the state a scientific educational institution of highest quality, we urge the enactment of proper laws to separate the management of the School of Mines from that of the University.

Respectfully submitted,
COMMITTEE ON RESOLUTIONS
R. F. Rucker, Chairman

Miner Trackmen Win Decisive Victory Over Arkansas State

Taking only three firsts in Saturday's track meet here, the track men from Arkansas State went down in defeat to the Miners by the score of 102 5-6 to 8 1-6.

Kelsoe, Arkansas' star sprinter, turned in two wins, one in the 100 yard dash and the other in the 220. Mitchell, Miner newcomer, trailed in both events to Kelsoe's times of 10.4 and 22.7 seconds respectively. Brownlee of Arkansas tallied the other win by capturing the 2 mile.

The Miners had full control throughout the meet. The Miner men made a clean sweep of the javelin, discus, and shot put. The broad jump proved to be one of the most competitive events of the afternoon. Perkins and LaBarge tied it out for top honors with "the victor with a jump of 2' 2". Ga-Nun was high scorer in filling in the winners with 14 points, winning the 880 and the mile and tied for first in the high jump.

Wednesday, Washington University will oppose the Miner trackmen here at 3:30 o'clock.

Results:

100 YARD DASH: Won by Kelsoe (A), Mitchell (M), second, Fuchs (M) third. Time 10.4.

220 YARD DASH: Won by Kelsoe (A), Mitchell (M), second.

Wilcox (A) third. Time 22.7.

440 YARD DASH: Won by Pierce (M), Bush (M) second, Wheatley (A) third. Time 56.1.

880 YARD RUN: Won by Ga-Nun (M), Kalish (M) second, and Meadows (A) third. Time 2:15.6.

MILE RUN: Won by Ga-Nun (M), Meadows (A) second, Bishop (A) third. Time 5:01.

2 MILE RUN: Won by Brownlee (A), Bishop (A) second, Bacterman (M) third. Time 11:33.7.

120 YARD HIGH HURDLES: Won by Itterman (M), Spinner (M) second, Peterson (M) third. Time 19.3.

220 YARD LOW HURDLES: Won by Corneau (M), La Barge (M) second, Edwards (Ark.) third. Time 26.9.

SHOT PUT: Won by Woods (M), Self (M) second, Leone (M) third. Distance 28' 1 1-2".

JAVELIN: Won by Bouchier (M), Perkins (M) second, Mengel (M) third. Distance 157 ft.

DISCUS: Won by Hessman (M), Leone (M) second, Self (M) third. Distance 108' 10".

HIGH JUMP: Ga-Nun and Spinner tied for first, McGinnis (A), Wheatley (A), and Fuchs (M) tied for third. Height 5' 6".

BROAD JUMP: Won by Perkins (M), LaBarge (M) second, Wheatley (A) third. Distance 20' 2".

POLE VAULT: Haas (M) and Hessman (M) tied for first, Edwards (A), and Spinner (M) tied for third. Height 10 feet.

MILE RELAY: Won by the Missouri Miners (Kalish, Bush, GaNun and Pierce). Time 3:46.

As a MINER Sees it

The titillating twinges of Spring seem to have spiked even the cute little coeds on our far-famed campus. Not only have they tossed away last winters lipstick, raised their hems two inches and smoothed out their waists, but now they're making passes. Jane was absolutely heard to say . . . quite, "I went up to Parker Hall to get me a miner, and when I got one, I went home." See, fellows, it ain't exactly futile, anymore.

And then there's this tiny blond trick Margie, that's been swinging Jeanie's former cordon away from the Lloyd estate. That poor little defenseless critter was resigning supreme at the Saturday night Pennant court with thousands of Miners surrounding her with starry eyes. Watch that, gentlemen, it ain't luv, just Spring.

Somebody should warn those camp-workers about butting into Miner pop-drinking parties. That innocent fellow from Oklahoma was prime entertainment for the boys with his droll stories and quaint harmonizing, but why didn't he realize that they were just stringing him along.

Don't take your sister to the tent show just out of town. Just a friendly tip that should boost box office receipts a couple of hundred percent. Good clean fun that the Ozarkers haven't been exposed to before.

Tom Beveridge, the Monmouth flash is getting ready for his annual Spring date. Ever since he was elected to preside over the functions of the music appreciation club, and had to wear a necktie, he's been accumulating a meaningful gleam in his eye. And this isn't a friendly tip, it's a warning.

I Phelta Thi, Lambda Chi, Pinky Rayl is apparently able to keep himself involved, all times, to the chagrin of his well-meaning professors, in certain extracurricular activities. Or so it might be gathered from the Boone Cafe crowd who are at present calling him 'Daddy' . . . And it's taking a weekly quota of Falstaff from now on out to keep the rest of the details out of this column, Red.

It didn't do Dahm much good to have that appendectomy performed last winter. That's when he met the little nurse that he got engaged to, and that's when his troubles began. Seems that George is definitely in the dog-house because he pulled the low trick of taking a single drink out of a bottle during St. Pat's. His gal friend apparently hasn't heard of Miners before. Doesn't know that they'll drink out of anything from a standpipe to a coeds saddle Oxford.

Miners to Meet Washington and Cape in Track

Thursday afternoon a strong Washington University squad of cindermen will invade the Miner campus at four o'clock. Then the track squad will rest on Friday and leave at 7:45 Saturday morning for Cape Girardeau. This team recently took its seventh consecutive indoor championship and is the reigning outdoor MIAA champ as well. The boys, after their fine performance against Arkansas Saturday, are expected to do much better in this meet than was earlier predicted.

The entries for Thursday's meet with Washington as well as the Cape Girardeau meet are as follows:

100 Yard Dash—Mitchell.
220 Yard Dash—Mitchell.
440 Yard Dash—Pierce, Busch.
880 Yard Run—GaNun, Van Pool.

Mile Run—GaNun, Blair.
2 Mile Run—Brown.

220 Low Hurdles—Corneau, La Barge.

120 High Hurdles—Peterson, Kendall.

High Jump—Fuchs.

Broad Jump—Perkins, LaBarge.

Pole Vault—Hessman.

Shot Put—Woods.

Discus Throw—Woods.

Javelin—Perkins, Hessman.

880 Yard Relay—La Barge, Corneau, Pierce, Mitchell, (anchor)

Mile Relay—Busch, Kalish, GaNun, Mitchell Pierce (anchor).

Golf Team Wins In Jeff City

The Miner golf team won over Jefferson City team last night by a team score of 15 1-2 2 1-2. The Miner team was composed of Jack Nevin, Bob Westwater, Mark Beard, and Charles Clarkson. Clarkson and Beard were low men with 83. Nevin shot 86 and Westwater 89. The course was windy.

Today the golf team will invade Westminster territory. Nevin, Sexton, Beard, and Clarkson will be on the Miner team. The golfers won over Arkansas Saturday by a team score of 5-0. Beard and Clarkson played for the Miners. Clarkson was low man with a 76.

Saturday the Miner Varsity tennis team won over Arkansas. In the singles Mooney last to Lendenberger, Aschemeyer lost to Bowell, Dunn of the Miners won over McCaw, and Bradley of the Miners won over Lictell. In the doubles Mooney and Aschemeyer won and Fleischli and Bradley won.

Inquiring Reporter Interviews Miners on Subject Of Music

By Sanford Simon

Have the Miners got what it takes to appreciate good music? We think they have. The lively interest which the students show for the band, and the formation of the new music club seem to substantiate our belief. To satisfy his own curiosity, your inquiring reporter has conducted a brief survey of student opinions on the subject. The victims were asked whether they thought the Miners appreciated good music. Their biased views were as follows.

Johnson Wright—Freshman
"The students do like to hear good music; look at the excellent attendance at all of the music programs on the General Lecture series."

Irene Davis
(the women, bless em')
"Some of the Miners are swingsters, but the majority appreciate

good music."

Gordon Engle — Junior
"On a whole, the Miners don't appreciate fully classical music, but they certainly appreciate semi-classical and the more often heard classical pieces. This affinity has been steadily increasing during the past few years."

Harvey Barnett — Sophomore
"A Miner turns on the radio to listen to swing and not classical music. As far as their appreciation of the duo-piano team on the lecture series, how much of the attendance and applause was for the artists, and how much for the music itself? Let's have the return of the St. Louis Civic Concert Orchestra. I'd like to hear them play 'In a Persian Market' by Ketelbey."

Bob Summers — Junior
"The fact that the Miners are engineering students does not

change their appreciation of music. Although full classic is beyond their ken, they all like the lighter classics as much as any other group of students, academic or technical."

Earl Smoot — Senior
"Lovers of both classic and swing are represented on the campus, the swingsters naturally having the greater percentage."

Edmund Burke — Sophomore

"The best recording made recent years is Benny Goodman's version of 'Swing, Swing, Swing' (from this you can gather what he thinks about swing and classical music.)"

Although I never expect to be the Miners substitute Waverly Bizet for their oft sung drinki songs, it appears that the love of good music is awakening at S. M.
